

***Your Reliable Partner***

# Company Profile

EIG was established in 2009 to provide steel fabrication, blasting and coatings services for the oil and gas industry. Since its start it provided customers with incomparable quality of services and products. Our main services include complete mud system fabrications, tanks, steel structures etc and we have commissioned these services for companies like OIL & GAS, Petrodrilling, Starnile, Almashreq petroleum, Petroservices and last but not least ECDC.

# Company Profile

## **Mission:**

The mission is to be a well-known supplier in Egypt primarily and Middle East North Africa Region in providing various oil field supplies and services in a specific and timely manner.

## **Vision:**

Provide the top quality services and supplies tailored perfectly to our customers' needs and

# HSE POLICY

Egyptian International Group (EIG) recognizes that the protection of the health and safety of its employees and others involved in its activities and the protection of the environment are an integral part of the company's business performance and a prime responsibility of all workers. The company committed to achieve world class HSE performance in accordance with good oil field practice.

# QUALITY POLICY

EIG is a quality conscious and responsible company that is committed to providing services and products with the highest quality standard there is, and to operating in a manner which will ensure that the highest standards of safety and environmental protection are maintained.

We will ensure compliance with the applicable safety and environmental legislation, where adequate legislation does not exist, standards

EGYPTIAN CHINESE DRILLING COMPANY

**Arabtec Construction, L.L.C.**  
"The Standard of Quality"

# Egyptian International Group

## SERVICES OFFERED

# Services:

Fabrication of complete mud systems, including the electrical works and mechanical works

Blasting operations using sand, garnet, steel shot, aluminum silicate or copper slag.

Protective coatings for steel structures for corrosion protection and flooring projects

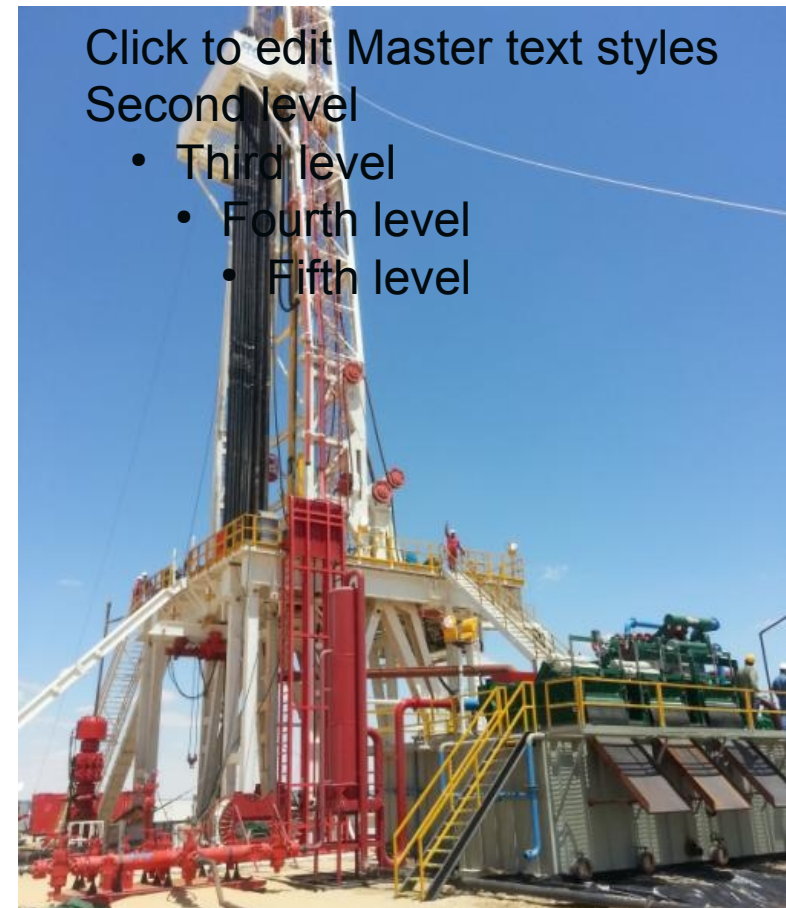

Steel Structure fabrication, welding and commissioning including

Caravans, Pipe racks, Steel Structures Building

# Equipment List Owned by EIG

#	Equipment Description	Quantity	Manufacturer	Status	Source
1	<i>Air Compressor 175 L/min</i>	2	Atlas Copco (German Made)	Used/ Very Good Condition	Owned
2	<i>Welding Machine (diesel powered)</i>	4	Miller	Used/ Very Good Condition	Owned
3	<i>Welding Machine (Electric driven) 600 Ampere.</i>	4	Miller	Used/ Very Good Condition	Owned
4	<i>8 in 1 Welding Machine</i>	1		Used/ Very Good Condition	Owned
5	<i>Gas Fueled cutting machine</i>	1	Vector	Used/ Very Good Condition	Owned
6	<i>Sandblasting pots with hoses 200 L</i>	4	Clemco	Used/ Very Good Condition	Owned
7	<i>Airless Spray Unit (1:68)</i>	2	Graco	Brand New	Owned
8	<i>Internal blasting unit for diameters from 4" to 8" and 8" to 36"</i>	4	Clemco	Used/ Good Condition	Owned
9	<i>Internal painting unit for diameters from 4" to 8" and 8" to 36"</i>	4	Clemco	Used/ Very Good Condition	Owned

# NOT JUST SAFE. VICTOR SAFE.

Follow these rules for maximum safety on the job.

1-800-426-1888  
[www.victorequip.com](http://www.victorequip.com)

**1** Read operating instructions carefully before using equipment. A guide to safe operation is included in all Victor outfits.

**2** Always keep cylinders securely chained. Keep valve caps on when not in use.

**3** Inspect regulator inlet and cylinder valve for any evidence of oil or grease. If oil or grease is found — do not use regulator!

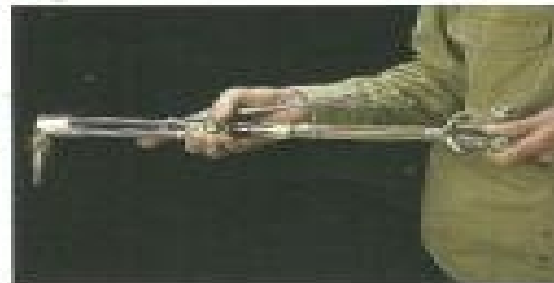

**4** Stand to the side when opening the cylinder valve. Always open the valve slowly and carefully.

**5** Always use flashback arrestors and reverse flow check valves when operating gas equipment.

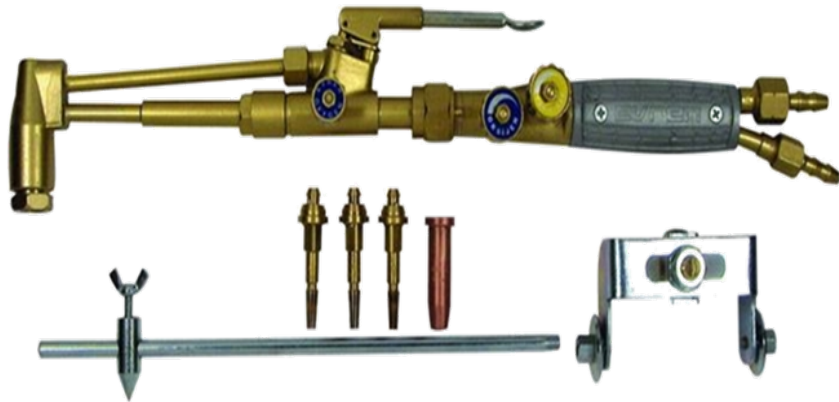

**6** Carefully inspect torch connections for damaged or missing "O" rings.

**7** Always purge the system before lighting the torch. Use tip charts when setting operating pressure.

**8** Wear protective clothing. Insure proper ventilation. Always keep sparks away from combustibles.
